JCS DECLASSIFY / RELEASE
INSTRUCTIONS ON FILE

APPENDIX D TO ENCLOSURE B

CAM PHA MINING PLAN

1. (C) Description. Cam Pha is a secondary port used almost exclusively for export of anthracite coal. The port may also be used as a base for coastal patrol craft.

2. (U) Location. Latitude 21-01-09N; longitude 107-22-14E.

3. (S) Harbor Statistics.

Channel depth - Maximum draft 27 feet at mean higher high water.

Alongside depth - 27 feet.

Anchorages - Numerous anchorages 1½ miles east of the harbor entrance.

4. (TS) Recommended Weapons and Sorties. One field only, designated as A is planned.

	Mines			
	MK 50-0	MK 36-1	MK 36-2	A-1 Sorties
a. Over target:	10	7	3	5
b. Launch:	12	9	4	7
c. Replenishment, per month:	4	3	1	2

d. Probability of damage to a single ship transiting the minefield area (assuming all fields planted):

Light damage 37.5%

Moderate damage 30%

e. Minefield Plot (Attached):
